

Note Taking: Quote Notes (Chps. 7-9)

- 1. Read your assigned chapter thoroughly.**
- 2. Identify five (5) significant* quotations within the chapter. Each quote should be no more than two sentences.**
- 3. On a separate document, write out each quote. [Do not type these notes.] Use the MLA citation method. You do not need to blend these quotes.**
- 4. Underneath, explain *in your own words* what each quote means. Use “I” and “my”. Make sure you explain the quote in the context of the entire reading. Also, don’t use quotes that simply repeat previous quotes. Finally, always ensure you have a quote from the final three pages of each chapter.**

***Try to focus on the quotes that explain and support the key points of the reading. Focus on major plot events, characters, themes and setting.**
